### Project Overview

- I. This project is a web application for a "Tom and Jerry" kids themed website. It features user authentication, navigation, and various sections showcasing content related to the animated series.

### File Structure

- I. The project directory is organized as follows:

```
/KIDS/
├── src/
│   ├── css/
│   │   └── output.css
│   └── Images/
│       ├── logo.png
│       ├── tom-hero.png
│       ├── star.png
│       ├── bear.png
│       ├── pencil.png
│       ├── book-removebg-preview.png
│       ├── evol.png
│       ├── evol1.png
│       ├── evol2.png
│       ├── top1.png
│       ├── top2.png
│       ├── top4.png
│       ├── top5.png
│       └── top6.png
```

## **PHP Code**

- I. The PHP code handles user authentication and session management.

File: /KIDS/src/index.php

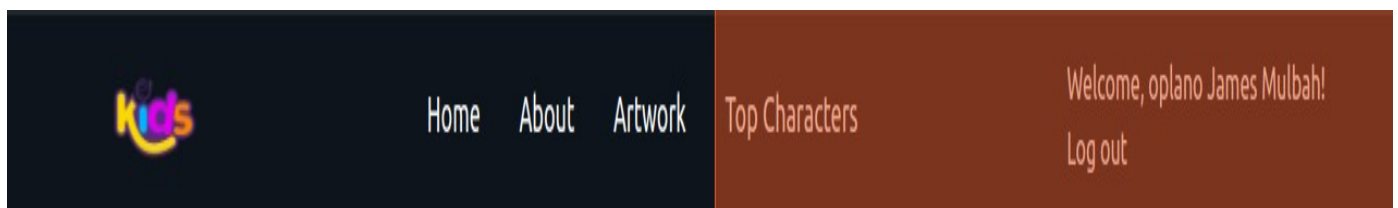

```
php
Copy code
<?php
session_start();

// Check if the user is logged in
if (!isset($_SESSION['name'])) {
    header('Location: /KIDS/src/php/Login.php');
    exit();
}

// Retrieve the username from the session
$username = $_SESSION['name'];
?>
```

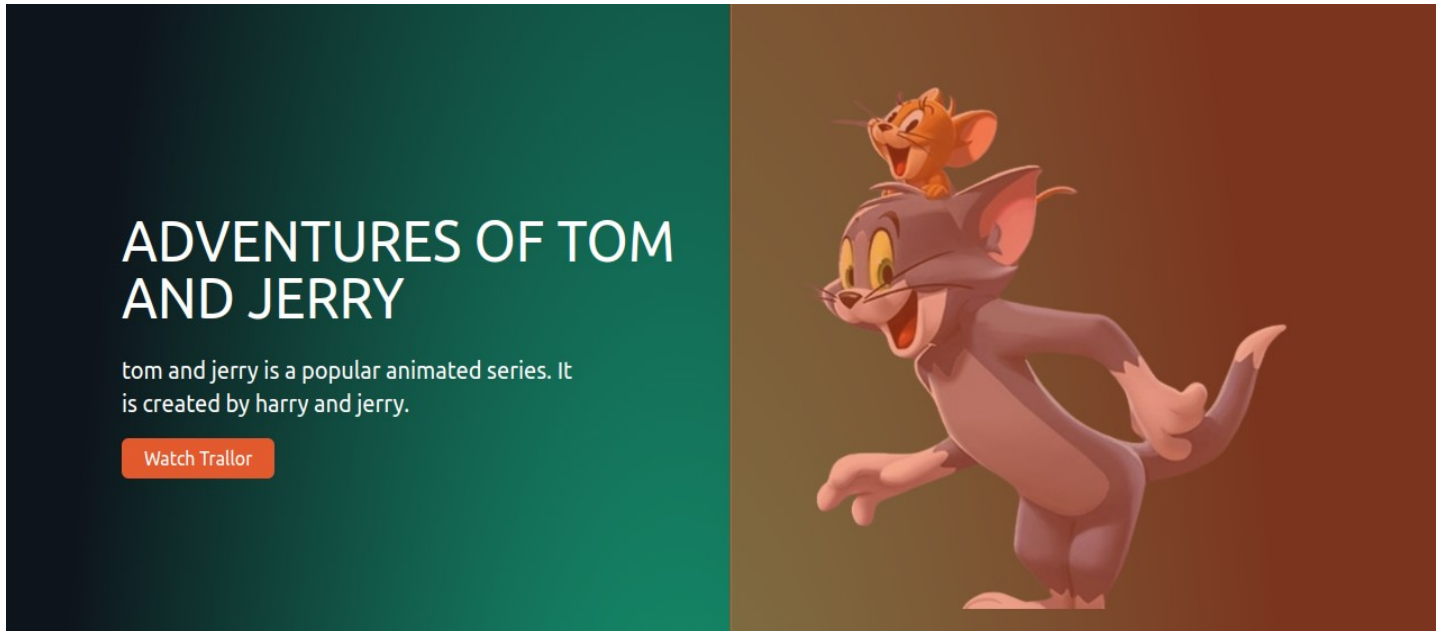

## **Navigation Bar**

- I. The navigation bar contains links to different sections of the website and displays a welcome message along with a logout option.

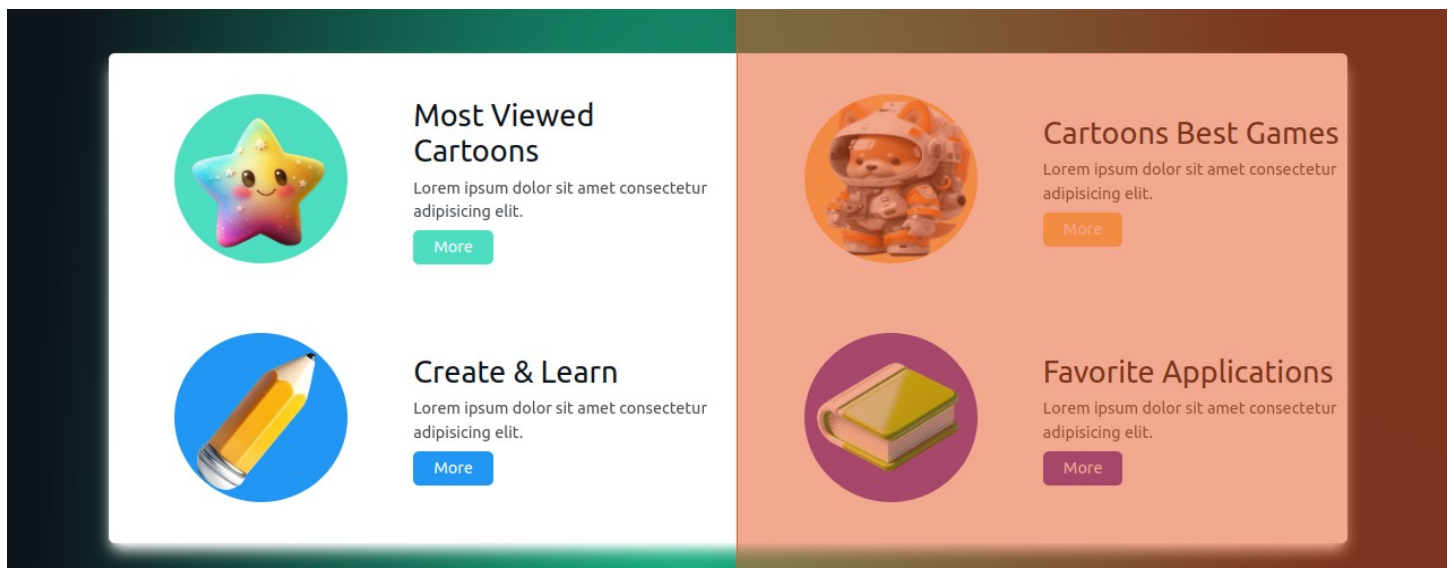

## Hero Section

- I. The hero section introduces the main theme of the website with a large title, a brief description, and a call-to-action button. An image of Tom and Jerry is also displayed prominently.

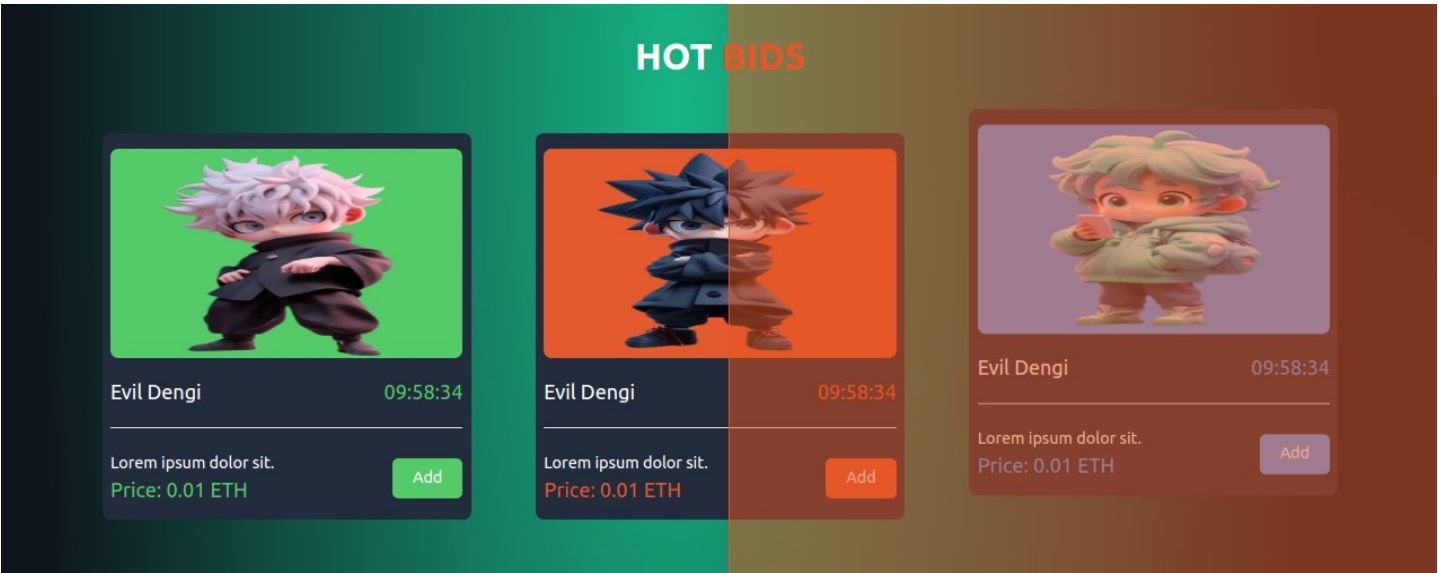

## Featured Sections

- I. This sections highlight featured content, such as the most viewed cartoons and the best games, each with a descriptive title, a brief description, and a call-to-action button.

# Hot Bids Section

- I. This section displays the "Hot Bids" with items available for bidding. Each item shows an image, title, countdown timer, price, and an "Add" button.

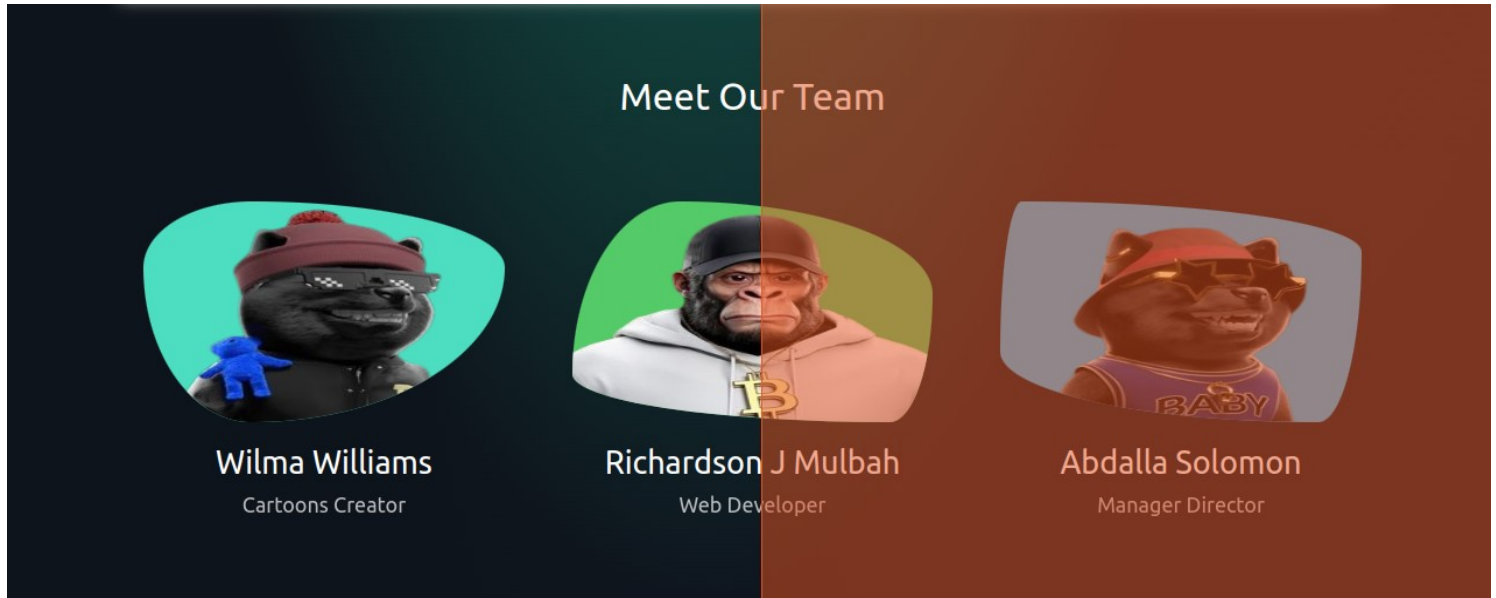

# Top Collection Section

- I. The Top Collection section showcases a curated selection of popular items related to the "Tom and Jerry" theme. It is designed to highlight the best and most beloved characters or items.

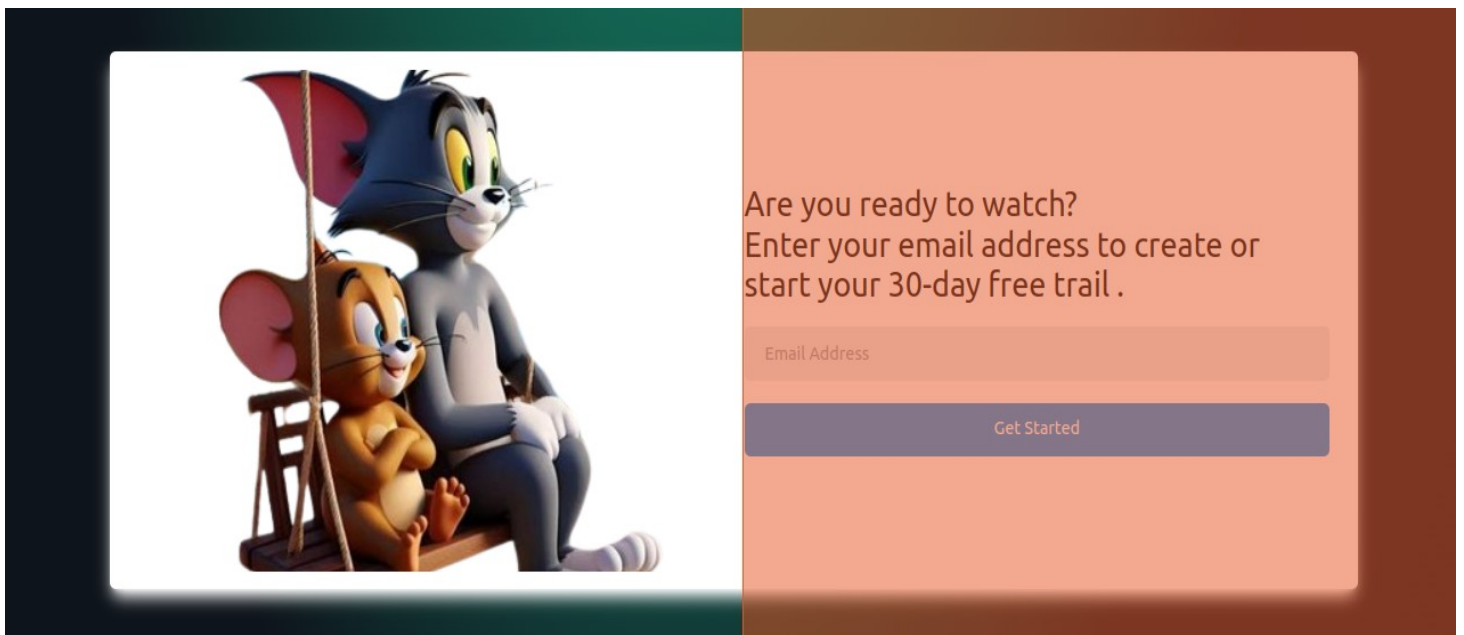

## Our Team Section

- I. The Our Team section introduces the key members behind the project, highlighting their roles and providing brief information about them.

## Newsletter Section

- I. The Newsletter section encourages visitors to subscribe for updates and news related to the "Tom and Jerry" fan club.

## Footer Section

- I. The footer section provides essential information and links to additional resources. The footer content is wrapped inside a container for proper alignment and spacing.

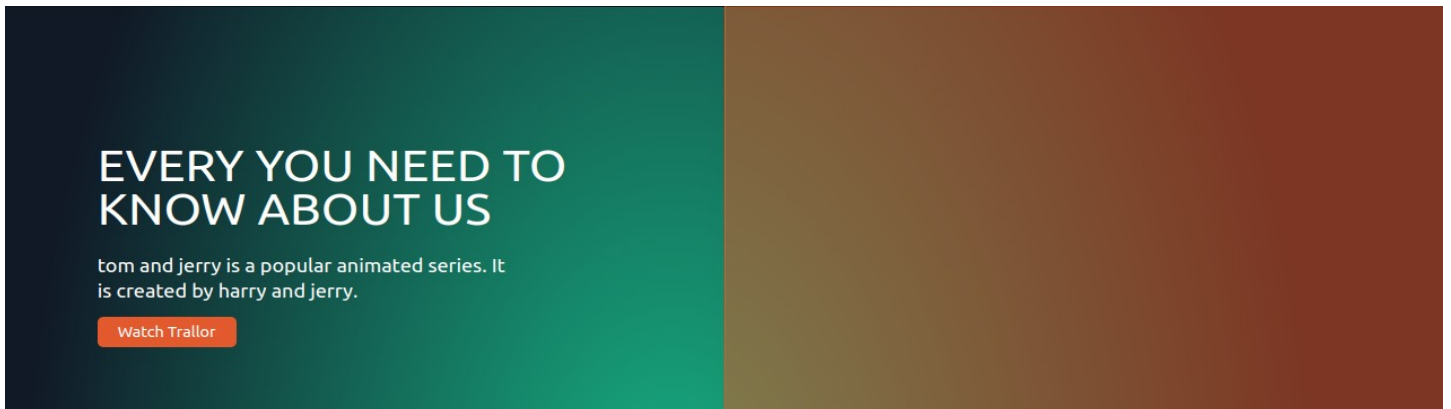

## Documentation for the About page

### Navigation Bar

- I. The navigation bar includes a logo, menu items, and user-related actions such as displaying the username and a logout link.
- II. Image provided in the index page

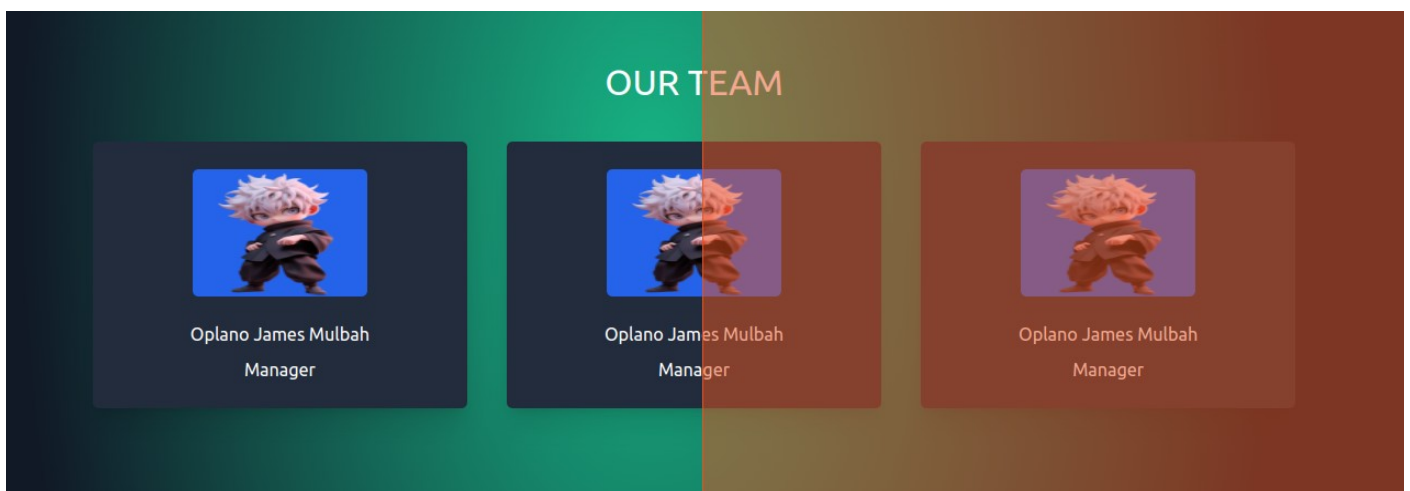

### About Us Section

- I. This section provides information about the project, including a brief description and a call-to-action button.

### Our Team Section

- I. This section introduces the team members, each with a photo, name, and role.

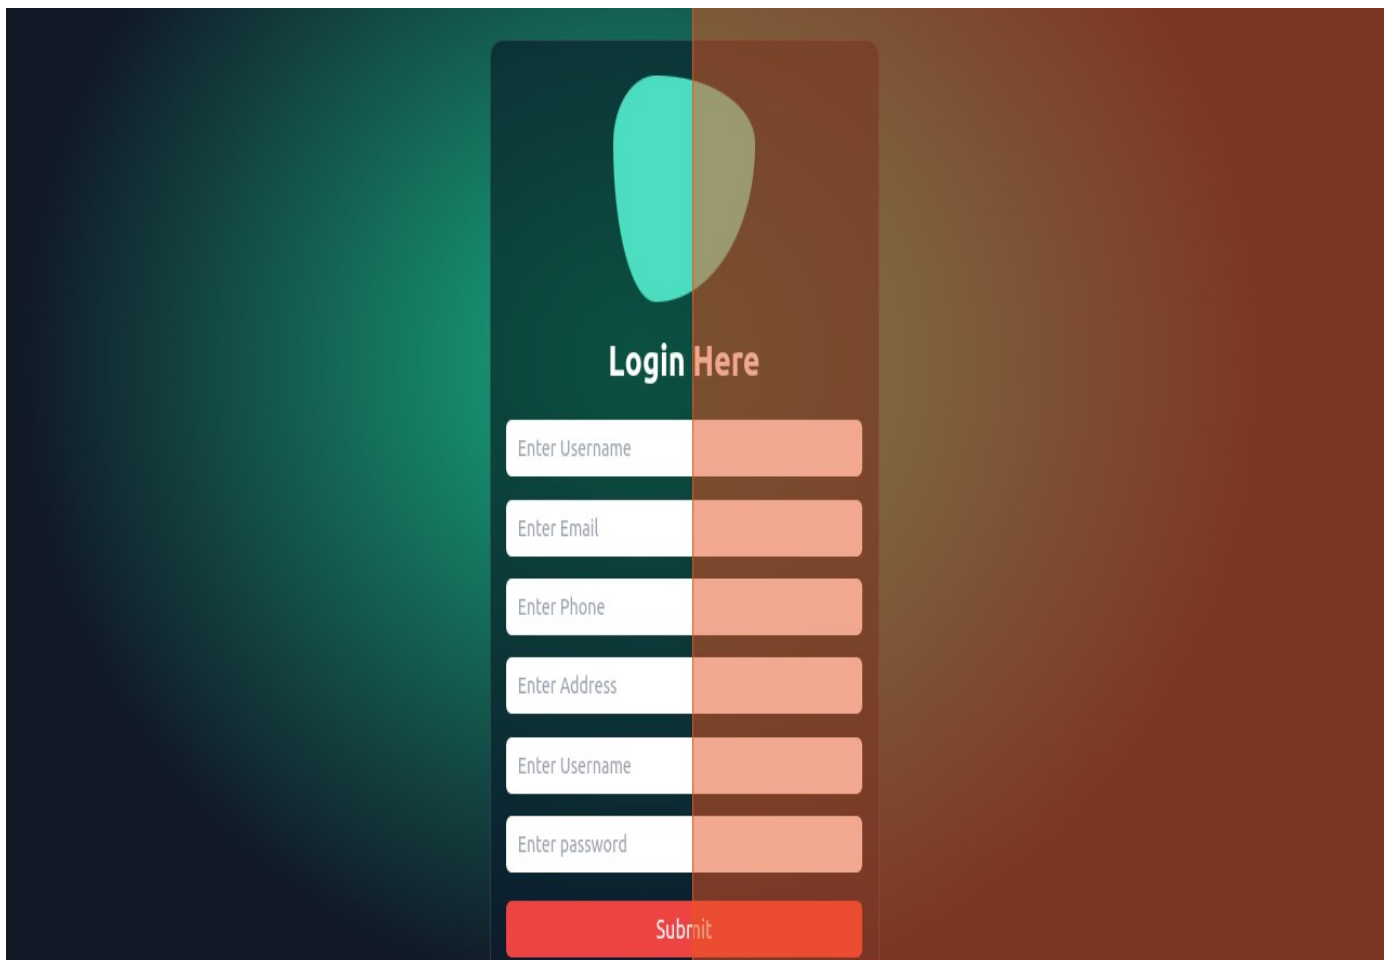

## Documentation for the Register page

### Overview

- I. This document outlines the structure and functionality of the provided HTML code for a form page. The code includes the HTML structure, form elements, and styling classes. Below is a detailed explanation of each section.

### Form Section

- I. The form is contained within a div that centers it on the page. It includes various input fields for user information and two buttons for submitting the form and navigating back.

The image shows a login/register form with a dark teal background and a brown gradient overlay. The form contains a 'Login Here' header, a profile picture placeholder, and input fields for Username, Email, Phone, Address, Username, and password, followed by a Submit button.

Login Here

Enter Username

Enter Email

Enter Phone

Enter Address

Enter Username

Enter password

Submit

## Documentation for the Login page

### Overview

- I. This document provides a structured overview and explanation of the provided HTML code for a login page. The code includes the overall HTML structure, form elements, and associated styling classes.

### Form Section

- I. The form is centered both vertically and horizontally within a full-screen container. It includes input fields for email and password, a login button, a back button, and a link to create a new account.
